

PRACTICE FEES FOR NON-NHS WORK

As an NHS practice, we provide our services “free of charge”. There are some aspects of our service however, that fall outside the remit of the NHS and these are chargeable, as below.

Patients will usually be informed of the likely charges when they request our non-NHS services.

Payment is required on completion/collection of the appropriate service and a receipt issued on request. Payment may be made in cash or by cheque, made payable to “**Washway Road Medical Centre**”. Sorry, we have no facility to accept credit or debit cards.

Please note that there may be times we have to temporarily suspend these services, to ensure that we meet our NHS obligations to all our patients.

These rates are effective from 1 AUGUST 2014
